About Anadolu Isuzu

Anadolu Isuzu started manufacturing commercial vehicles in Turkey in 1984. Since then Anadolu Isuzu has been expanding its operations and product portfolio as a publicly traded partnership between the Anadolu Group, Isuzu Motors Limited and Itochu. Focusing on the commercial vehicles segment in the automotive industry, Anadolu Isuzu boasts a powerful product range, effective after-sales services and a broad network of dealerships and technical services. Manufacturing trucks, light trucks, midibuses, buses and pickups, Anadolu Isuzu commands an ambitious position in export markets.

Engaged in the marketing of commercial vehicles as well as their manufacturing, the company has an annual production capacity of 19,000 vehicles in single-shift operation in its 300,000-square-meter plant in Kocaeli. Anadolu Isuzu factory in Turkey is the one and only plant, which has Isuzu Manufacturing Management certificate for truck, pick up and bus production within all Isuzu worldwide network out of Asia which ensures the highest quality and production standards. Anadolu Isuzu serves its customers at 28 sale outlets and 103 after sales service points across Turkey. Not to mention distributorships in more than 35 countries all over the World. Having achieved the largest export turnover in its 23-year export history at the end of 2017, Anadolu Isuzu has declared its 14th midibus export championship the same year.

**BRINGING COMFORT AND SAFETY
TOGETHER, WE KEEP CONNECTING THE
WORLD'S ROADS WITH OUR EXPERTISE.**

Operating as the one and only Isuzu Manufacturing Management (IMM) certified Isuzu factory in Europe, Anadolu Isuzu is shaping the future of transportation not only in Europe but across a wide geography including Middle East and Africa.

**LEADER IN EXPORT FOR
15 YEARS**

With our existence in over **40+ countries**, Anadolu Isuzu has been the leader midibus exporter of Turkey for **15 years**.

In 2018:

- We broke the exporting record after **24 years**.
- **77%** of our exporting turnover is from Europe.

READY FOR THE FUTURE

As we are growing faster than ever, we keep looking for new partners to be a part of our 2020 goals.

In 2021:

We are planning to reach an exporting network of **60 countries**.

ISUZU CITIBUS

Anadolu Isuzu's 9,5 meter public transportation bus is designed to meet the requirements of old metropolises with narrow streets and for those smaller municipalities which have to serve in several transit routes including urban areas with lower populations. Today, on the other hand, most of the larger municipalities have also begun to invest on smaller buses as an economical option for their regular transit routes.

Increasing complexity of public transportation networks in modern cities arise the need for more economical transportation investments all around the world. Connecting various ways of transportation within cities through the most economical way possible, is one of the most important tasks of modern municipalities. Compared to bigger transit buses, Citibus offers the most ideal solution to modern cities, by providing exceptionally lower investment and operational costs, higher levels of agility and maneuverability, and the optimum capacity for passengers.

Isuzu engine in Citibus produces 210 HP and the bus has Isuzu MZW-6F manuel transmission as standard or Allison 2100 as automatic transmission option.

Spacious interior layout, kneeling system and an easy-to-use wheelchair ramp enhance the accessibility of the vehicle and allows a barrier-free journey for all passengers.

ABS, electrically controlled mirrors, preheater and integrated CCTV system allow a safe ride for the driver and the passengers in intense city traffic.

Ergonomic dashboard, heated driver seat, driver cabin and digital A/C significantly enhance drivers comfort.

Anadolu Isuzu the one and only "Isuzu Manufacturing Management (IMM)" certified Isuzu factory in Europe.

CITIBUS

Increasing complexity of public transportation networks in modern cities arise the need for more economical transportation investments all around the world.

TECHNICAL SPECIFICATIONS

CITIBUS	
Main Dimensions (L x W x H)	9515 mm x 2409 mm x 3117 mm
Passenger Capacity	17 Seated+ 57 Standing
Engine	ISUZU 4HK1E2S
Horsepower (PS/RPM)	210 / 2600
Torque (NM/RPM)	637 /1600-2600
Transmission	ISUZU MZW-6F Manual (S), ALLISON 2100 Automatic (Opt)
Brake System	ABS
AC System	Digital Air Conditioner
Tires	265 / 70 R19,5
Optional Features	Different Seating Variations, Preheater, CCTV, Rear View Camera, Fuel Preheater, Electrically Controlled Mirrors

ISUZU NOVOCITI

Anadolu Isuzu's solid medium size coach is also available with a Class 1 version for inner-city public transportation. Novociti is a result of nearly 35 years of design and manufacturing experience of Anadolu Isuzu and it is powered by world-famous Isuzu engine which produces 175 HP at 2600 RPM. Novociti provides sufficient traction power for inner-city use with its 500 NM torque rate between 1600 – 2600 rpm. Thanks to its compact size and smart design, Novociti provides an easy drive even in the narrowest streets of the old metropolises. The spacious interior design gives enough space for up to 54 passengers (21 seated + 33 standing) on transit lines.

Novociti offers a safe and comfortable journey for its passengers and the driver. In order to maximize the comfort of driver, Novociti is designed with an ergonomic dashboard with a driver-friendly instrument panel, hydraulic power steering, a shelf above the driver seat for his/her private use and timer-adjusted heated driver window. ABS, disc brakes and rear air suspension are among other equipments which assure a safe and comfortable trip for the passengers.

NOVOCITI

Anadolu Isuzu cares the ones behind the wheel, the ones who spend most of their time on the roads... The ones who work with full commitment to ensure a safe and comfortable journey for passengers. We believe that the driver's comfort and the safety on board is essential for a safe and pleasant journey.

TECHNICAL SPECIFICATIONS

NOVOCITI

ISUZU TURQUOISE

Anadolu Isuzu's tested and trusted medium-size coach is powered by Isuzu engine, which produces 175 horsepower at 2600 rpm. Turquoise offers a pleasant journey to the driver and the passengers with its stylish interior design and its wide spectrum of comfort equipments. Combining the advantages of a minibus and a full-size coach in a smart "midi" concept, Turquoise becomes an ideal partner for short and medium-haul local transportation, panoramic tours and excursions. With its seat and luggage capacity up to 33 passengers, Isuzu Turquoise offers a high level of comfort just like a full-size coach, while it operates as economical, manoeuvrable and versatile as a minibus in urban traffic.

Anadolu Isuzu cares the ones behind the wheel, the ones who spend most of their time on the roads... The ones who work with full commitment to ensure a safe and comfortable journey for passengers. We believe that the driver's comfort and the safety on board is essential for a safe and pleasant journey. That's why, Turquoise is designed in a way to offer the best working place for the drivers: Air actuated and adjustable driver seat, an ergonomic dashboard with a driver-friendly instrument panel, a tilt and telescopic power steering, a locker above the driver seat for his/her private use and an additional exterior mirror for ensuring the perfect rear vision are all standard for the drivers of Isuzu Turquoise. ABS braking systems and rear air suspension are among other features which secure a safe and comfortable journey while travelling with Turquoise.

The comfort level for the passengers is doubled with the VIP version. WC unit, 2+1 passenger seat layout, heater on door steps and a more stylish upholstery for the seats and the interior makes the journey a more pleasant experience for the passengers.

TURQUOISE

ISUZU NOVO ULTRA

Europe's leading medium-sized bus and coach builder, Anadolu Isuzu is proud to present Novo series midibuses. Novo series medium-size coach family has been serving the European markets for more than a decade.

Anadolu Isuzu's well-known medium-size coach series is simply glamorous with its new exterior view. Both interior and exterior of Novo and Novo Ultra models have been redesigned following a comprehensive customer research program. Isuzu engine for Novo series produces 175 HP at 2600 RPM. Novo series buses offer seat and luggage capacity up to 29 passengers.

Novo series buses are offered in two different versions, one at "Standard" and the other at "Ultra" comfort level. The interior design, rear suspension, brake system and the comfort equipments of these two versions are designed differently, reflecting the requirements of different areas of use. Isuzu's world-class powertrain, top quality engineering and state-of-art exterior view, on the other hand, They are completely same in both Novo and Novo Ultra.

Wide door thresholds and a spacious aisle significantly increase the accesibility inside the bus.
